

When Gastro intestinal track get infected with spoiled water, food and milk products

Triogon™
TABLET

...the only choice

- Improves gastro-intestinal tone and digestive function
- Reinforces vitality of stomach and intestines
- Restores resistance to all water, food and milk born bacteria
- Prophylaxis is undesirable for majority of person, who has to travel, because of possible side effects of therapy and the risk of provoking the emergence of resistant strains. It is preferable to suggest treatment as to prevent specific episode of diarrhoea
- **TRIOGON** - is a very good time-tested combination of herbs and minerals, for persons who have weak water intolerance and less digestive energy and deficiency of blood. (With achlorhydria)
- **TRIOGON** - is a choicest medicine for persons, with inflammatory bowel diseases, who are prone to develop more severe and prolonged attacks of traveller's diarrhoea and should receive prophylactic therapy

All kind of problems due to intake of spoiled water, food, fruits, vegetables and milk products

TriogonTM
